

Trauerfall - Krematorium

The screenshot shows a software interface for managing funeral cases. The window title is "Grab CAGR/TEST/003/003 WG1". The interface includes a menu bar with "Bearbeiten", "Ansicht", and "Hilfe". Below the menu bar are icons for "Speichern & Schließen" and "Datensatz merken". The main area contains several input fields and checkboxes for personal and burial data. The "Trauerfall" tab is selected, showing details for a deceased person named "Becker Günther" who died on "12.02.2016". The burial location is "Carsten Friedhof" (CAGR), and the burial date is "12.03.2016". The "Krematorium" section shows the "Einäscherung" (cremation) date as "05.03.2016" and the "Übernahme" (removal) date as "Übernahme2". The "Asche Nummer" (ash number) is "52".

Hier werden wichtige Informationen zur Einäscherung vermerkt. Darunterfallen Daten zur Asche, des Verstorbenen, Übernahme..usw. Auch hier runter fallen Informationen über die Urne und weitere Verfahren.
